

GUTMANN

**GUTMANN GROUP –  
more than just  
aluminium profiles!**

## Flexibility and versatility.

Our range of services includes a wide spectrum of profile dimensions together with a variety of complementary services. These include highly decorative anodizing, internal anodizing, comprehensive mechanical processing all the way to component construction as well as material and surface testing from our own laboratory.

Dialogue with customers and interested parties is a fundamental building block for the quality of our performance. As varied as the requirements are, the possible solutions are just as diverse. The **GUTMANN GROUP** also develops tailor-made solutions for more complex tasks.

**MADE IN  
GERMANY**

**EVERYTHING  
FROM ONE SOURCE**

Hardly any other group of companies in the industry can offer as wide a range of products from a single source “made in Germany” as the **GUTMANN GROUP**.

## Intelligently networked together – the **GUTMANN GROUP**

## FURTHER PROCESSING

	Sawing	Cross-sections	<b>max. 600 mm x 240 mm</b> Straight, angular and mitre sections <b>10 mm to 7,200 mm length</b>		Assembly	Individual assembly options according to customer requirements, completion of structural parts
	Punching		<b>up to 7,000 mm length</b> max. pressing force 800 kN		Washing and degreasing	Component cleaning
	Drilling		<b>up to 8,500 mm length,</b> CNC-controlled, 3, 4 and 5 axes		Foiling and bonding	of various profile lengths and cross-sections
	Milling		<b>up to 8,500 mm length,</b> CNC-controlled, 3, 4 and 5 axes		Labelling	Colour printing, screen printing, needle embossing, CNC engraving, laser marking
	Deburring		<b>mechanical brush</b> <b>deburring</b>		Quality assurance	Test plan-dependent production monitoring, material testing, protocols, certificates
	Bending		<b>Indumasch bending</b> <b>machines</b>		Packaging	Standard, special and reusable packaging according to customer requirements
	Robot welding		<b>CNC-controlled</b> Robot MIG (131)		Logistics	Transport, warehouse and distribution logistics OTD (On Time Delivery), customs management
	Friction Stir Welding		<b>FSW</b> <b>Friction Stir Welding</b>		Turning	CNC turning Rod and chuck machining
	Manual welding		<b>Manual welding stations</b> MIG (131) and TIG (141)			
	Thermal breaking		<b>Composite lengths up</b> <b>to 8,500 mm</b>			

Further processing options on request.
